# MINER COLOCATION

## advania
### data centers

## We offer 4 levels of services that cover the whole spectrum of crypto mining needs:

### Wholesale DC:

Are you looking to mine at scale? Wholesale DC is the solution for you, we can tailor our services to fit your mining operation requirements no matter how large they are.

### Miner Colocation Basic:

Are you looking for a lean way to operate your mining equipment and utilize services on demand? Our Basic plan suits customers that want to keep a lean mining operation or can operate it autonomously.

### Miner Colocation Plus:

Miner Colocation Plus is our carefree colocation plan. It's the right fit for mining operators looking for predictable OPEX, reliable management and operations of the mining infrastructure. This is a great plan for customers that mine at scale or are looking to ramp up their operations.

### 2MS:

Are you looking for a turnkey solution? 2MS is the right fit for you. 2MS is a flexible Mining as a Service plan, that includes equipment and operations. Our team of experts ensures that your mining operations are running at full performance, managing the infrastructure as well as handling the mining optimization and payouts.

## Whether you are looking for a turnkey solution or for wholesale data center services we can address your needs better than anyone else in the market.
